

Austria Country Summary

Introduction

Background

Once the center of power for the large Austro-Hungarian Empire, Austria was reduced to a small republic after its defeat in World War I. A State Treaty signed in 1955 recognized Austria's independence after a decade of Allied occupation. The treaty's neutrality requirement has kept Austria from joining NATO, but the country joined the EU in 1995.

Geography

Area

total: 83,871 sq km

land: 82,445 sq km

water: 1,426 sq km
